

AKDO®

BESPOKE CARPET

Far Beyond the Surface

AKDO®

AKDO is a company built on a foundation of love, family and dedication. Thirty years ago, our CEO, Hakki Akbulak was looking for a way to stay connected with his brother, who, at the time, was an ocean apart in Turkey. The pair decided that by founding a business together, they would remain connected in every aspect of their lives on a daily basis.

As a result, AKDO was born, and today is comprised of multiple factories, ateliers, and a vast distribution network in luxury markets. The AKDO family is much larger than it once was, and includes a group of passionate and caring employees, suppliers, dealers, consultants and customers.

on love*

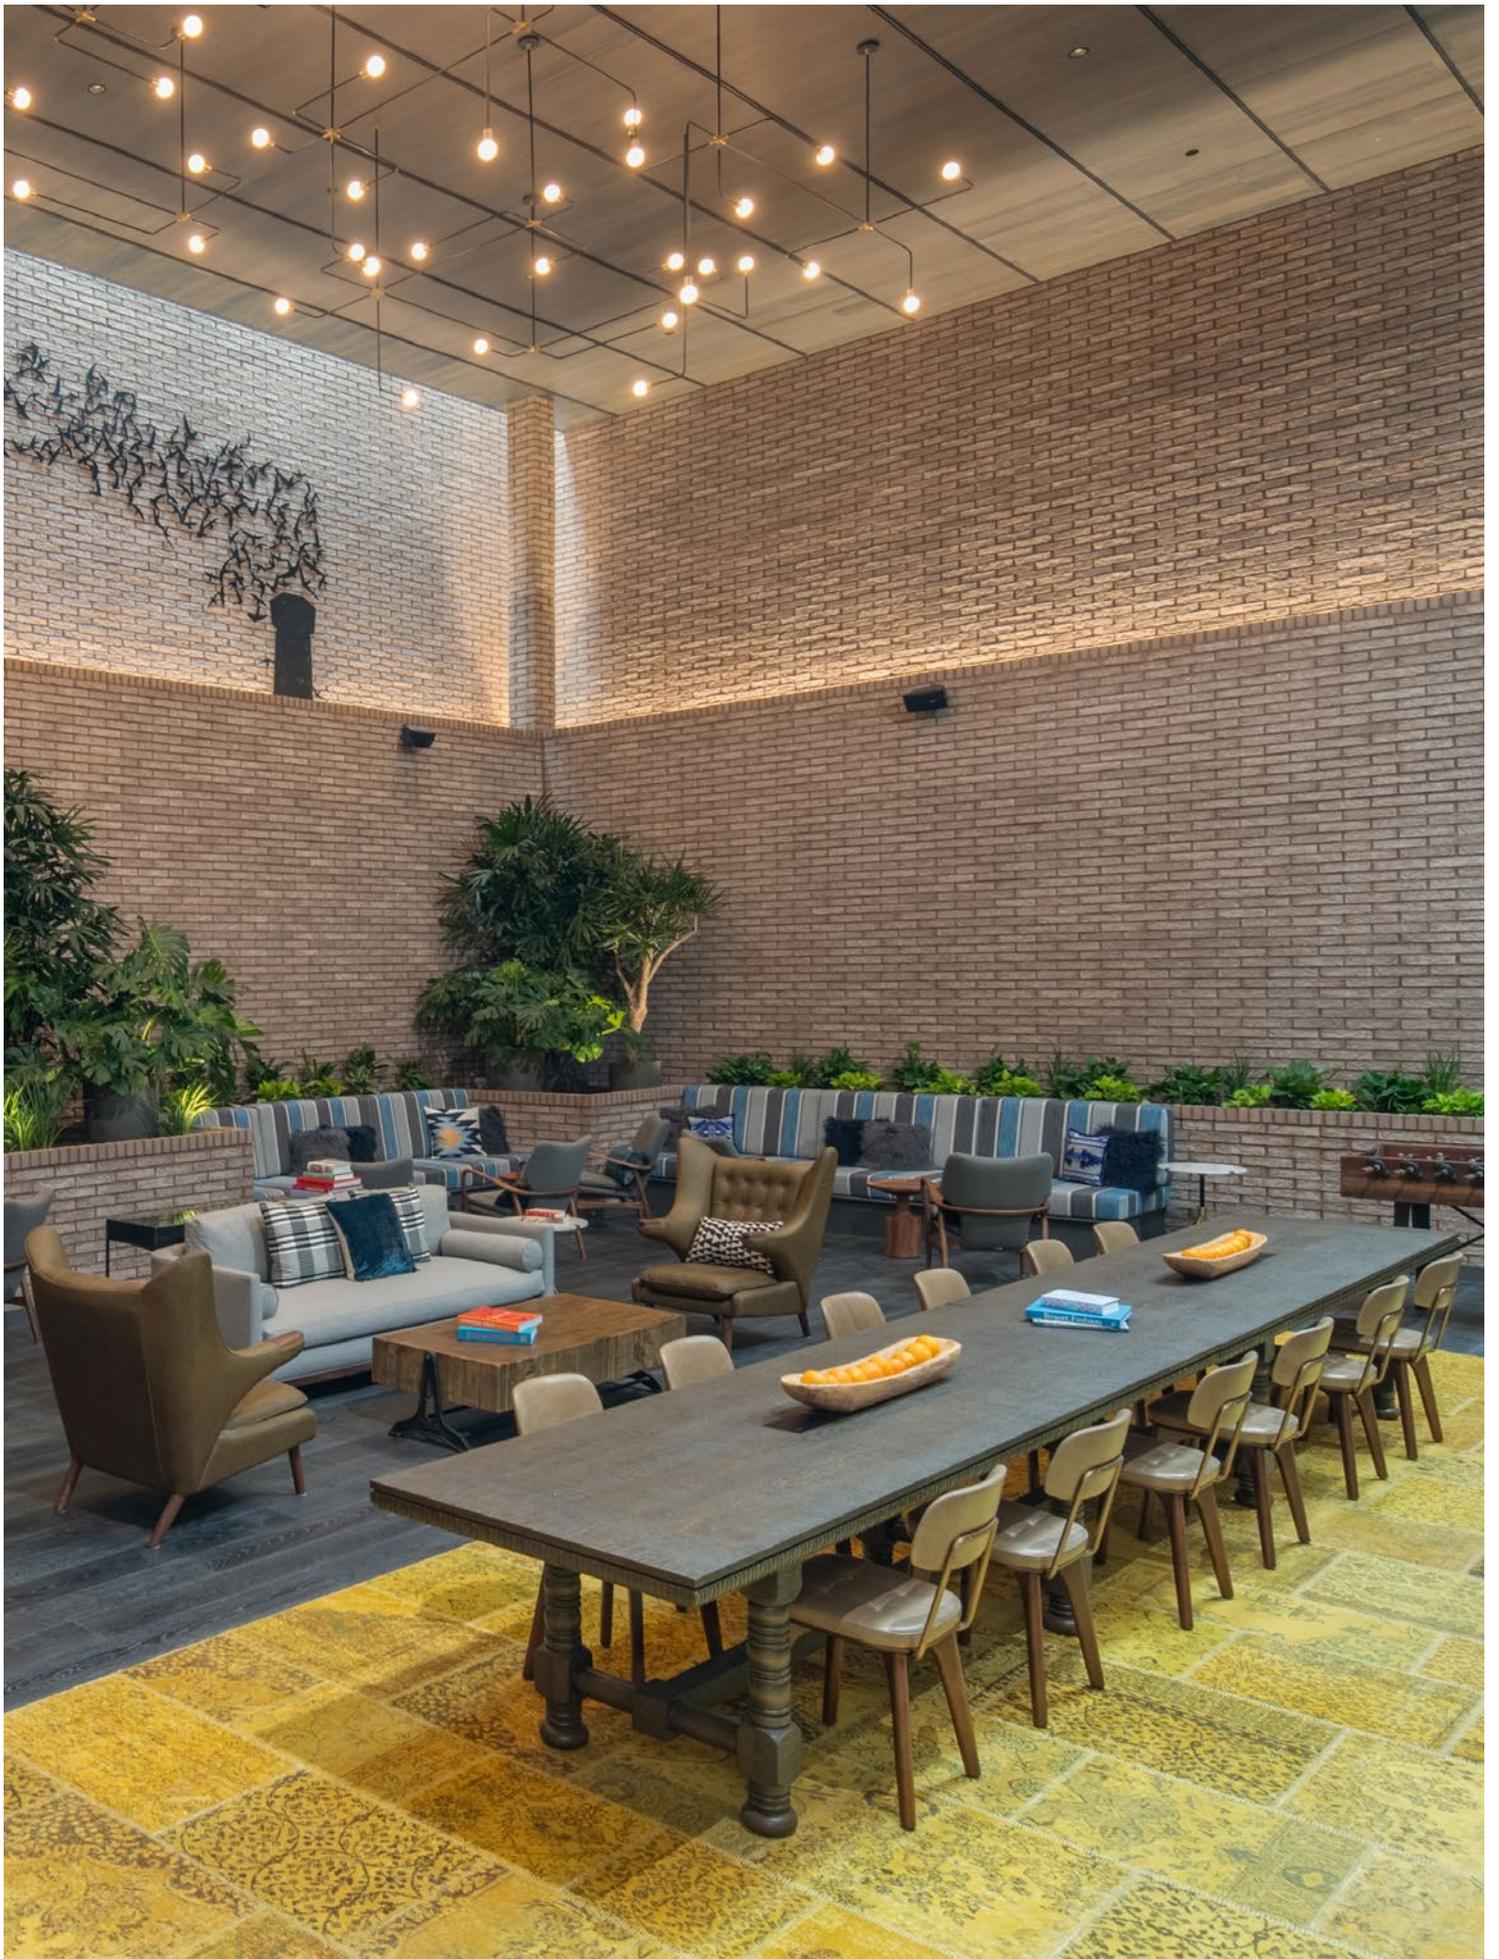

With exclusive rights to numerous factories boasting fully integrated production, we are in a unique position to control the quality of our products, starting with bespoke dyeing of fibers and ending with hand-finished details.

Through our factories, we offer both comprehensive technical support and a highly trained staff of professional architects who are ready to help you with even the most challenging building requirements.

Additionally, our manufacturing standards go far beyond just aesthetics; careful attention is paid to environmentally responsible production, and Silkar's factories are considered to be some of the best in the world. The factories have strict quality control, ensuring each product meets our customer's expectations. Finally, all of our offerings are designed with beauty in mind, and handmade by highly trained artisans with strict quality control.

This is what we like to call The AKDO Advantage.

AMERICAN LUXURY BRAND

Our business segments consist of retail showrooms, authorized dealers, commercial, and bi-coastal centers.

In addition to our Connecticut and California Showrooms, AKDO opened its first Retail Showroom in New York's famed Flatiron District, the city's design hub, which features a bespoke carpet studio.

Manhattan Showroom. NY

Residential

Using the world's highest quality materials, from natural fibers like wool to silk to manmade fibers such as tinsel or viscose, we can custom produce your dream carpet and engineer it to fit into any budget. Multiple finishing techniques are available to you, including carving, tip-shearing, unique knotting, mixing pile heights, and blending materials. Whether you need a wow effect for your foyer or a bespoke circular staircase runner, we can make it happen in any design, color, or shape.

Commercial

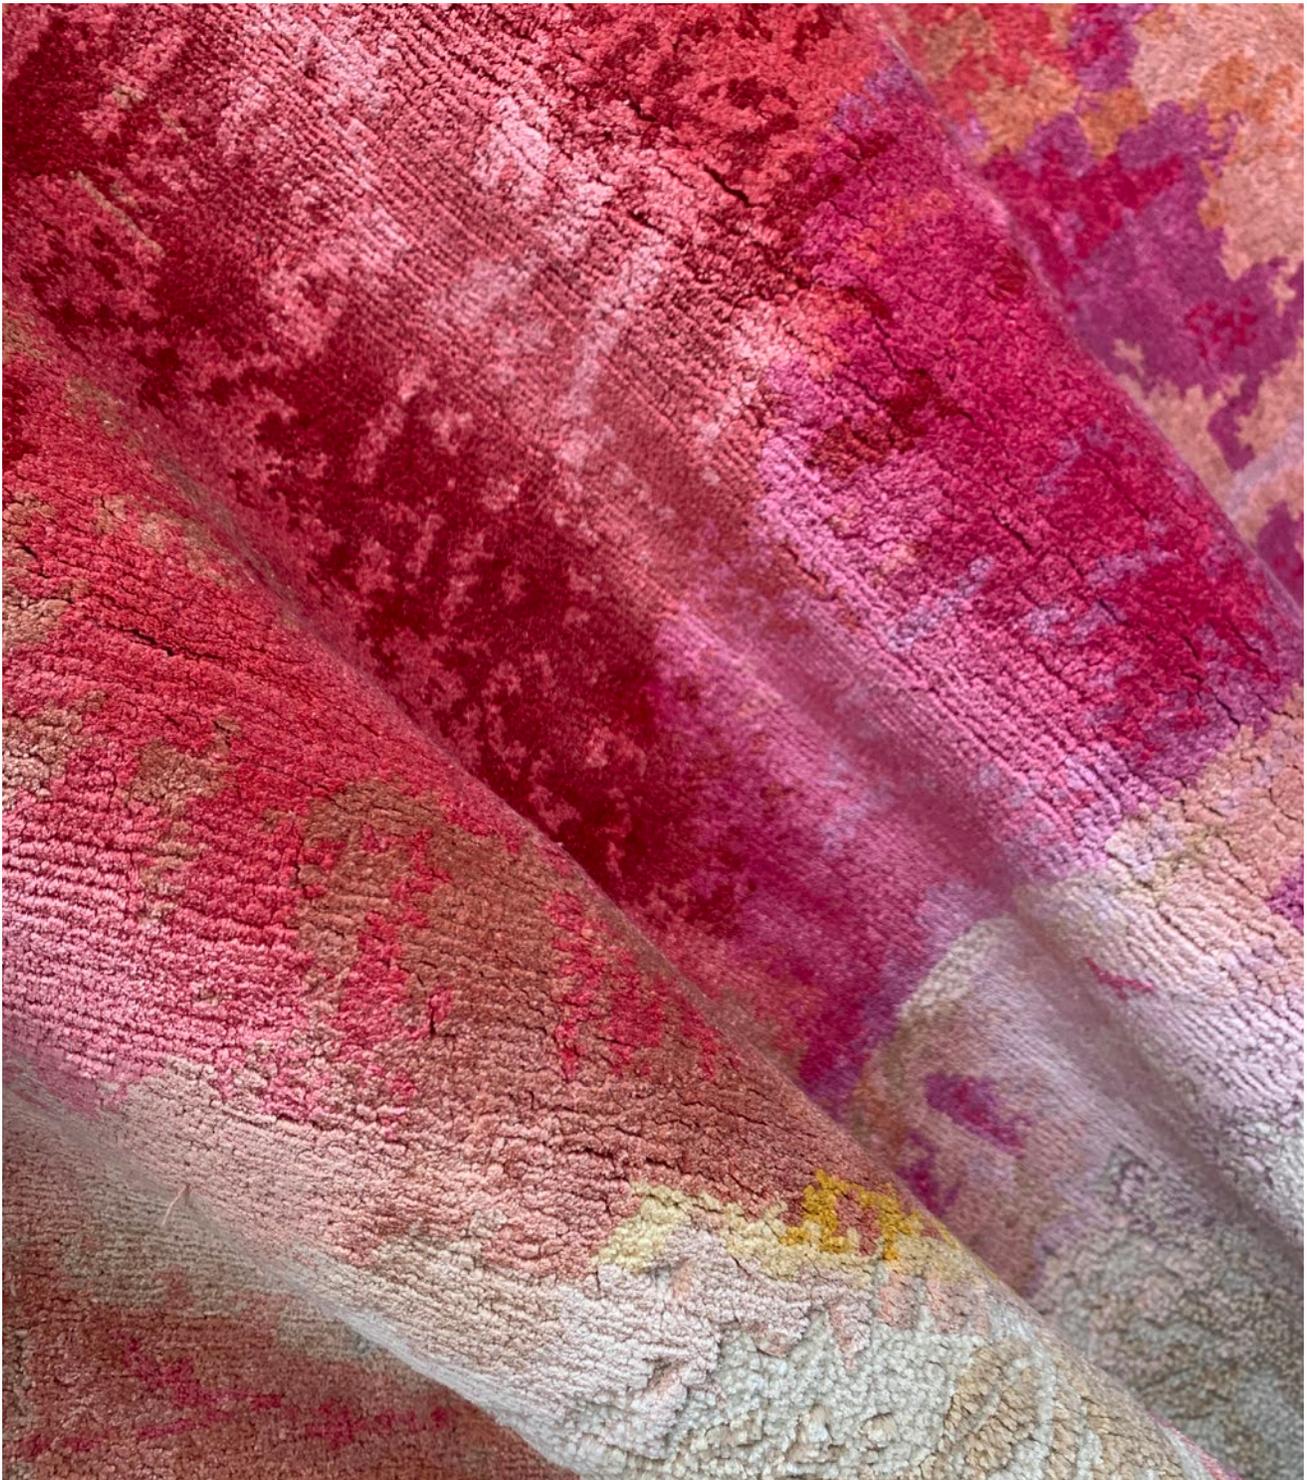

From hotels to retail boutiques, AKDO is consistently pushing boundaries in order to provide the best solutions for your projects. We know you need to partner with a supplier that can meet your needs and keep your project on course. That's why we offer products that are not only of the highest quality, but also provide answers to all your functional requirements, aesthetic needs, budget, and lead time - all complimented with AKDO's stellar customer support.

CARPET COLLECTIONS

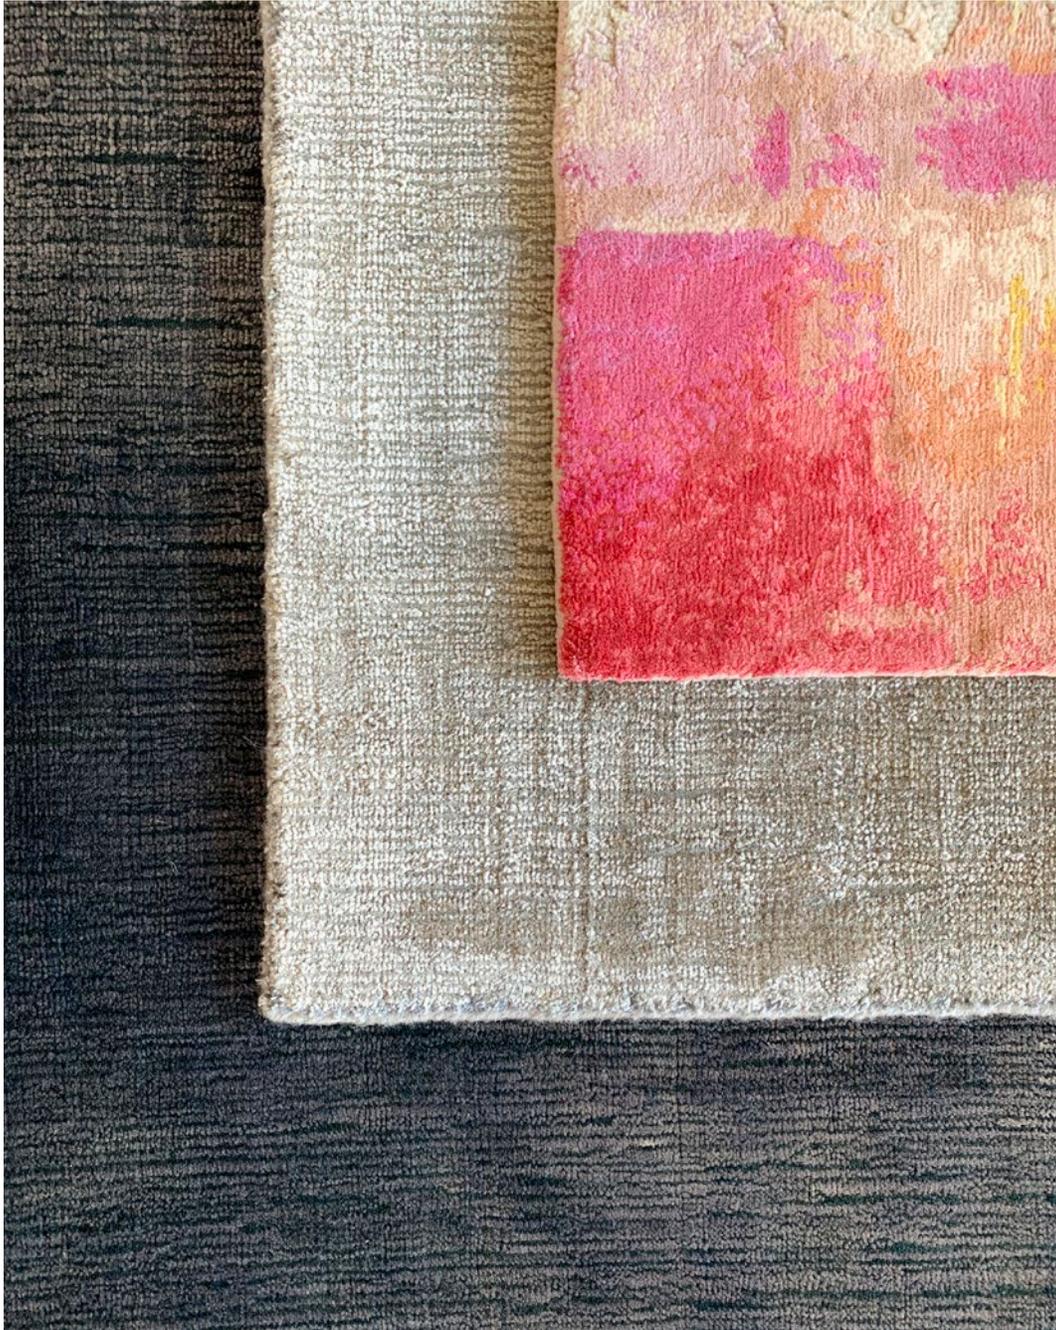

These highly sophisticated, signature carpets are available for you to order as-is, or to serve as inspiration for a bespoke design of your own.

These are the sometimes iconic, always beautiful designs that have earned AKDO a reputation for design leadership.

HAND-KNOTTED

The fine craftsmanship used to create hand-knotted rugs result in a high quality, resilient and exquisitely beautiful carpet.

HAND-TUFTED

Hand-tufted carpets are a designer favorite when looking to create unique spaces. Their versatility allows for endless options in pattern, color, pile-height, material, and texture. They are created with a tool called tufting gun, which reduces cost compared to hand-knotted construction, and minimizes wastage in wall-to-wall installation as the carpet can be produced as per the specific dimensions of the room.

VINTAGE

Bringing the beauty from the past into present-day, our Vintage Collections are created from antique Anatolian rugs, kilims and textiles. With construction that ensures durability and easy maintenance, these rugs are ideal for both residential and commercial projects. Available in cheerful pops of bold color, or subtle neutrals, these carpets create a modern vibe while evoke the charm and history of the originals.

COWHIDE

Introduce amazing texture and pattern into your space with a custom cowhide rug. Made from natural leather, any design is possible, with the unique markings on the hides creating one of a kind look for each rug. Choose standard hide colors to let the beauty of the natural material sing, or incorporate custom dyes to make a vibrant statement.

THE AKDO ADVANTAGE

Experience & Flexibility

At AKDO, we know there's a lot you need to get the job done. You need samples, technical support and information, quick answers regarding quotes and lead times, timely follow-ups, and of course, you want it all from an experienced group that prides themselves on customer support. We go far beyond the surface to deliver on our promises, supply the products you want and need, and of course, do so in a timely manner.

Manufacturing & Innovation

Direct access to both quarries and factories allows research and development teams on both continents to produce original collections, which are highly esteemed and coveted by designers and enthusiasts throughout the industry. Additionally, our manufacturing standards go far beyond just aesthetics; the factories have strict quality control, ensuring each product is designed with beauty and handmade by highly trained artisans.

Vertical Integration

Our vertical capabilities make us nimbler, faster and more economical than other tile brands in the U.S. who rely on outside vendors. We have the exclusive rights to 9 quarries and our own production, which puts us in a unique position to control the quality of our product down to the last detail.

Convenience

AKDO is virtually a One-Stop-Shop for all your surface covering needs. The unique foundation of our company affords us the ability to fulfill custom and large commercial orders on time, all while providing support and premium quality stone product to suit any client's needs. Additionally, having warehouses on both the East and West Coasts of the U.S. ensures complete coverage of the country and a quick-ship capability.
