Due to the inherent characteristics of glass, there may be variations in color, movement, and texture from lot to lot. For detailed installation guidelines, visit [akdo.com](#).

DISCLAIMER: The performance of surface covering products often depends on installation, environmental, and usage factors unique to each project. AKDO is not responsible for any effects that may be caused to products due to installation, wear from use, or exposure to environmental factors including but not limited to: hard water, chemicals, heat, flame, smoke, dirt or other substances. It is your responsibility to assess the project to determine if the product you are selecting is appropriate considering the unique characteristics of your installation, and to apply appropriate, high quality sealers when necessary. Please consult your installer for more information.

JEFFREY BEERS

Jeffrey Beers is a New York-based architect, who, for over twenty-five years, has been designing and planning noteworthy commercial projects around the world. With the support of his team at his eponymous firm, Jeffrey Beers International, Jeffrey constructs award-winning gathering spaces - including hotels, nightclubs, residences and restaurants - all of which leave a lasting impression on those who occupy them.

As the result of a nomadic childhood, Jeffrey Beers has fostered a deep love of art and craftsmanship, as well as an interest in the customs of other cultures, from a young age. These curiosities proved the catalysts of Jeffrey's future, eventually leading him to study architecture at the Rhode Island School of Design. During this time, Jeffrey also studied with the renowned glass artist, Dale Chihuly, and has been passionate about the art form ever since. While a deep focus is placed on bringing the energy of his passions for art, glass sculpture and travel into his designs, Jeffrey also has the ability to deeply understand the needs of his clients, and thus, successfully fuses business strategy and functionality with his creative visions.
